

AO Recon Advanced Course Complex Total Hip and Knee Arthroplasty

REGISTER NOW!

June 14–15, 2022

Budapest, Hungary

Course description

This course is modular in structure and highly interactive. Short, evidence-based lectures cover the key information required. Moderated case discussions in small groups will expand on each topic and help participants to develop decision-making skills in small group discussion and surgical management skills in the anatomical specimen lab. Participants will have the opportunity to share their experience with peers and international faculty. All factors related to achieving the best possible outcomes in complex and revision arthroplasty will be covered.

Target participants

This course is targeted at certified, experienced orthopedic surgeons who wish to enhance their knowledge and skills in complex arthroplasty.

Registration fee

Course full fee: EUR 980

Included in the course fee are a conference bag with documentation, coffee breaks, lunch, a course dinner at the Hotel Continental Budapest, and a course certificate

Goal of the course

The AO Recon Course—Complex Total Hip and Knee Arthroplasty teaches current concepts in the treatment of patients with a need for revision or complex primary arthroplasty in the hip and knee.

Learning objectives

At the end of the event, the participants will be able to:

- Describe a systematic clinical, laboratory, and radiographic evaluation in revision and complex primary arthroplasty
- Optimize preoperative planning
- Adopt a patient-centered approach
- Optimize patients preoperatively to reduce complications
- Describe and discuss safe and effective procedures for revision and complex primary arthroplasty
- Discuss the management of early and late problems or complications
- Communicate and facilitate a multidisciplinary team-based approach
- Apply best practices to optimize and document patient outcome
